

Brotherhood Art Association

About Us

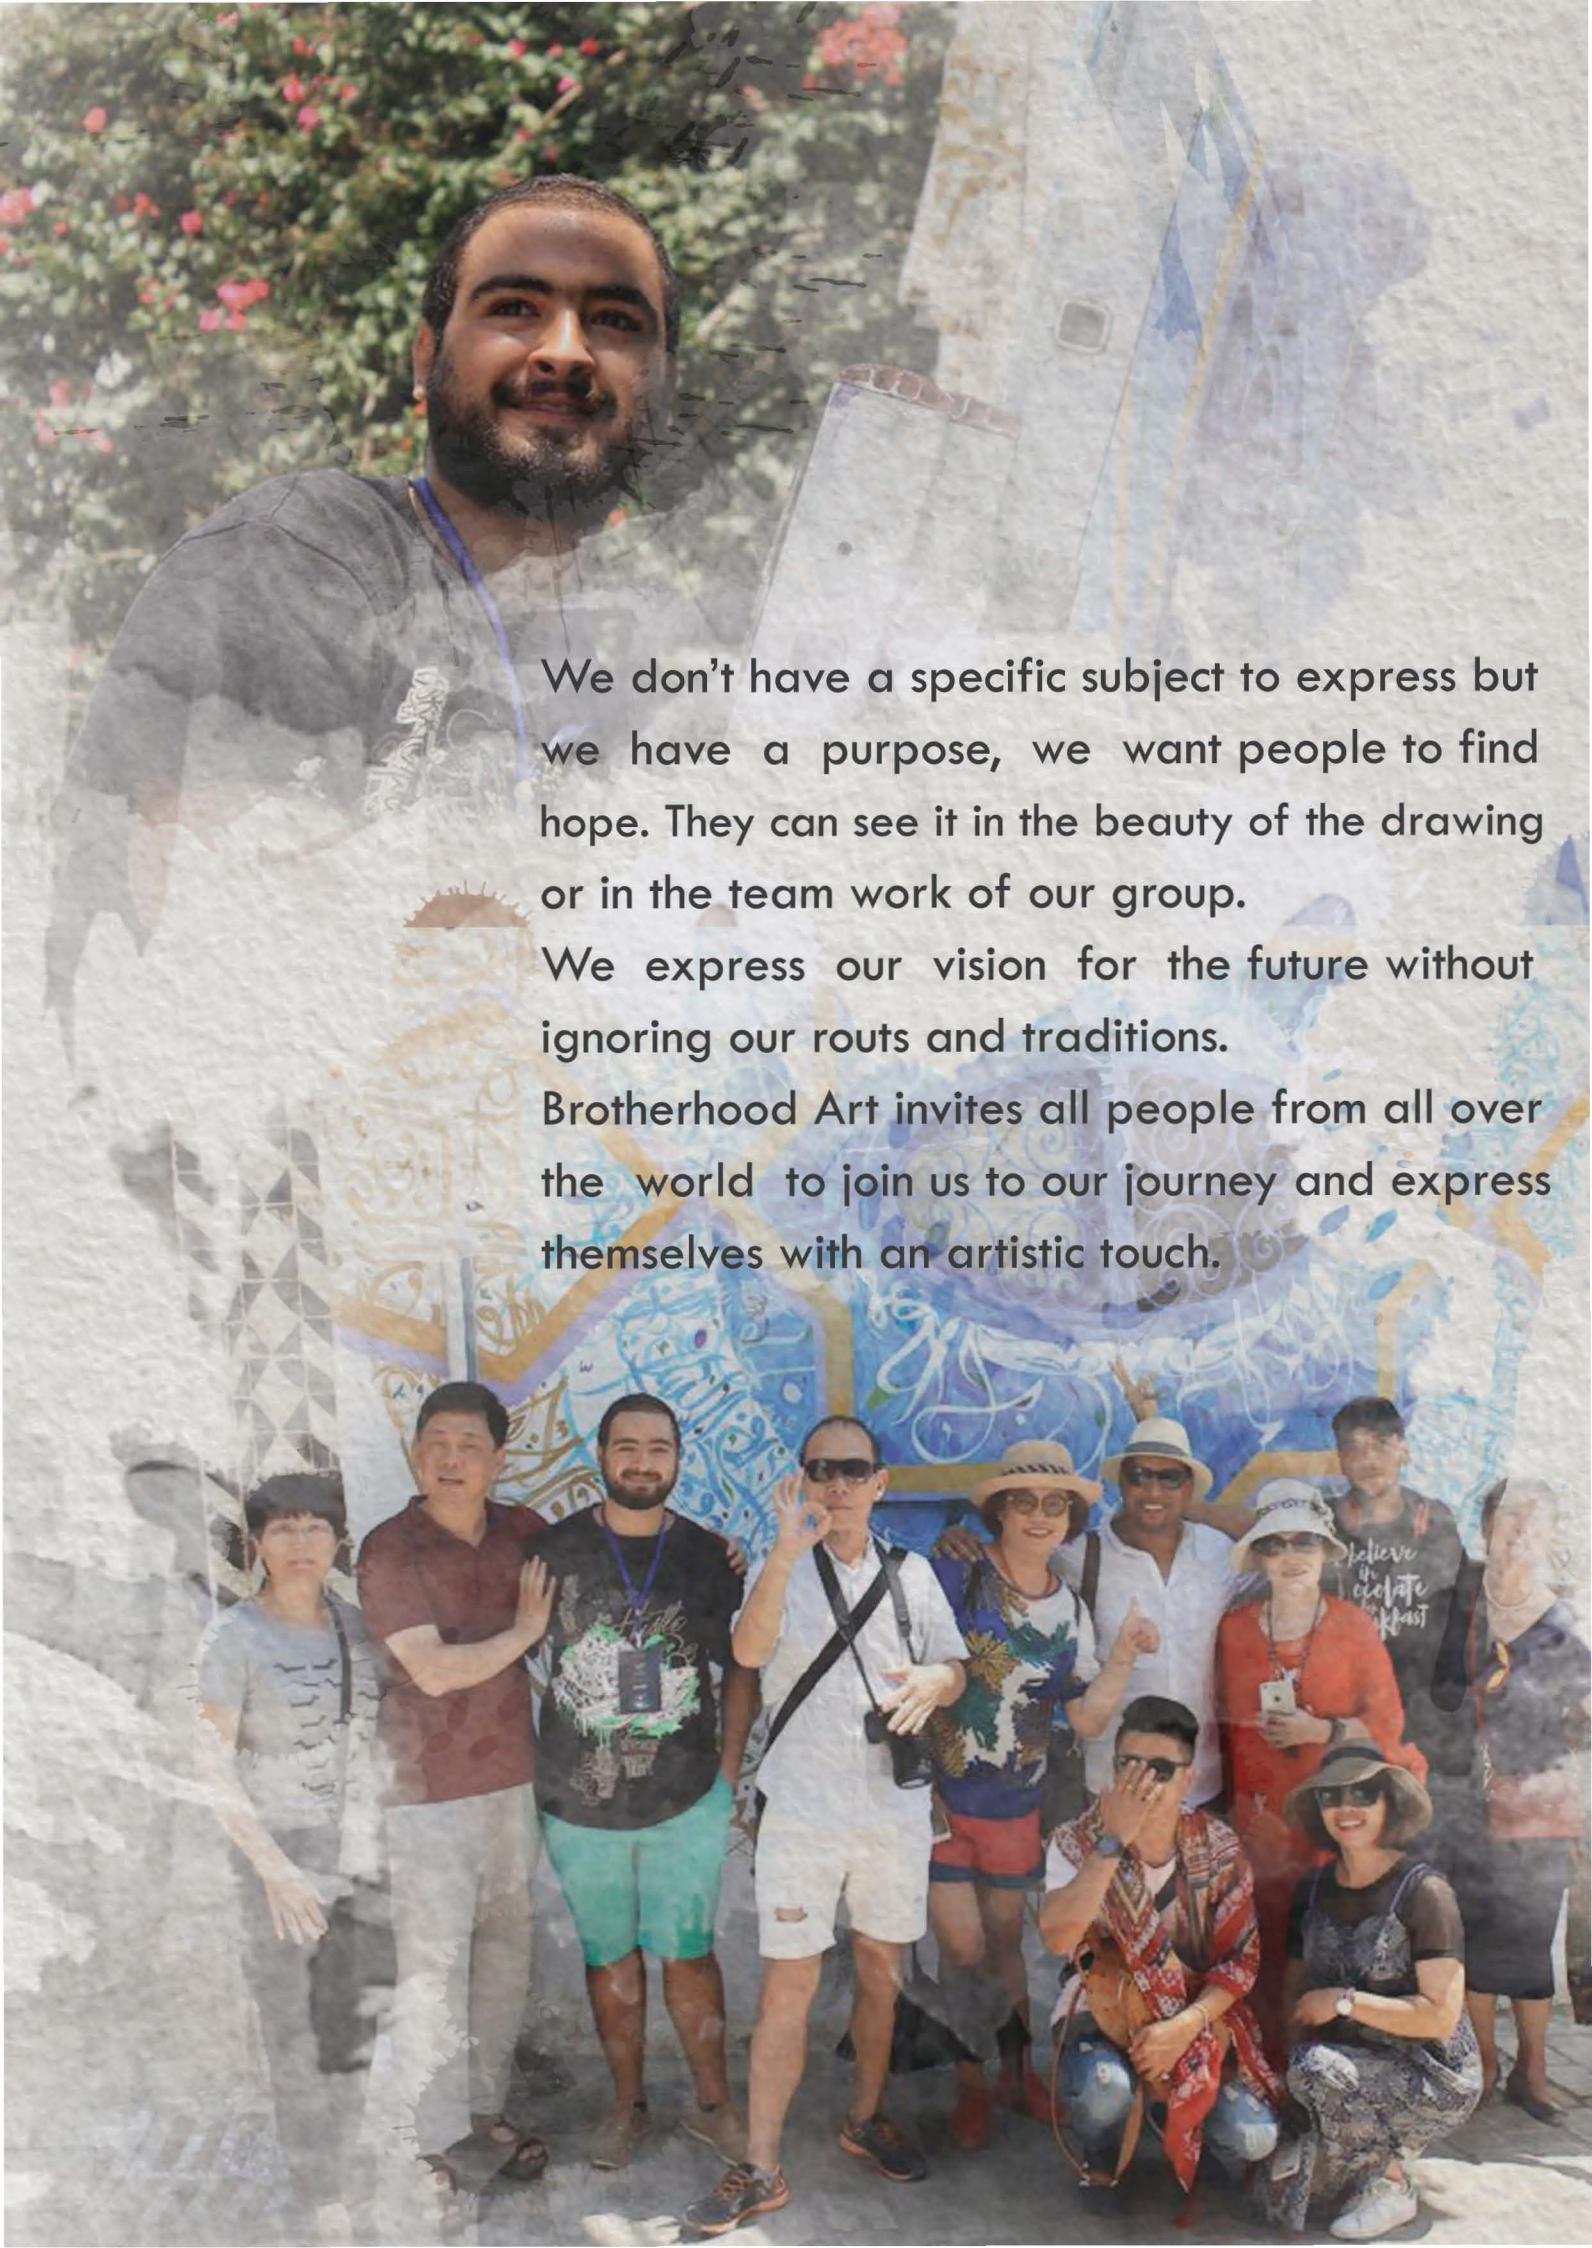

This is a collective, our story started in 2014, we agreed on three fundamental principles, "1 Love, 1 Aim, 1 Respect". We started at first by meeting only in the Sahel, then we decided to open to all regions of Tunisia and we aimed to train young people motivated and passionate about Street Art. At present our organization includes about twenty young people scattered everywhere and we have leaders in almost all the governorates.

Our art and inspirations

As far as our art is concerned, it's all about "Street Art", it's not just making tags or calligraphy is more than that. It's about putting on all the space we have! Our main inspiration is Tunisia, our beautiful little country, which is full of history and the Arabic language which is very rich. When we are asked to work somewhere we have to learn all the history of this place and that's where we start working and inspiring ourselves.

BROTHERHOOD
ART

We don't have a specific subject to express but we have a purpose, we want people to find hope. They can see it in the beauty of the drawing or in the team work of our group.

We express our vision for the future without ignoring our roots and traditions.

Brotherhood Art invites all people from all over the world to join us to our journey and express themselves with an artistic touch.

Our Members

Fassine Maalet

Street artist, 26 years old, researcher in the fine arts of Sousse, specialist in the field of urban art, underground art. Founder and president of the art organization Brotherhood art.

Since the beginning of his university studies, he has developed his knowledge of Street art as an artistic phenomenon that exploits the urban environment, going far beyond traditionalist and conventional media.

Hela Karmous

Hela karmous 27 years old, Vice president of Brotherhood Art Associationshe have a physics diploma but she went to a different direction in her professional life, now she is a digital and graffiti artist her work as an illustrator started with small manga inspired drawings that soon developed into murals. Driven, Hela colored up the roads of her hometown in an attempt to find excitement and test her potential. By that time she never thought that her little hobby would develop to be a full grown project including not only graffiti but also digital art and maybe more in the future.

Boutheina Messous

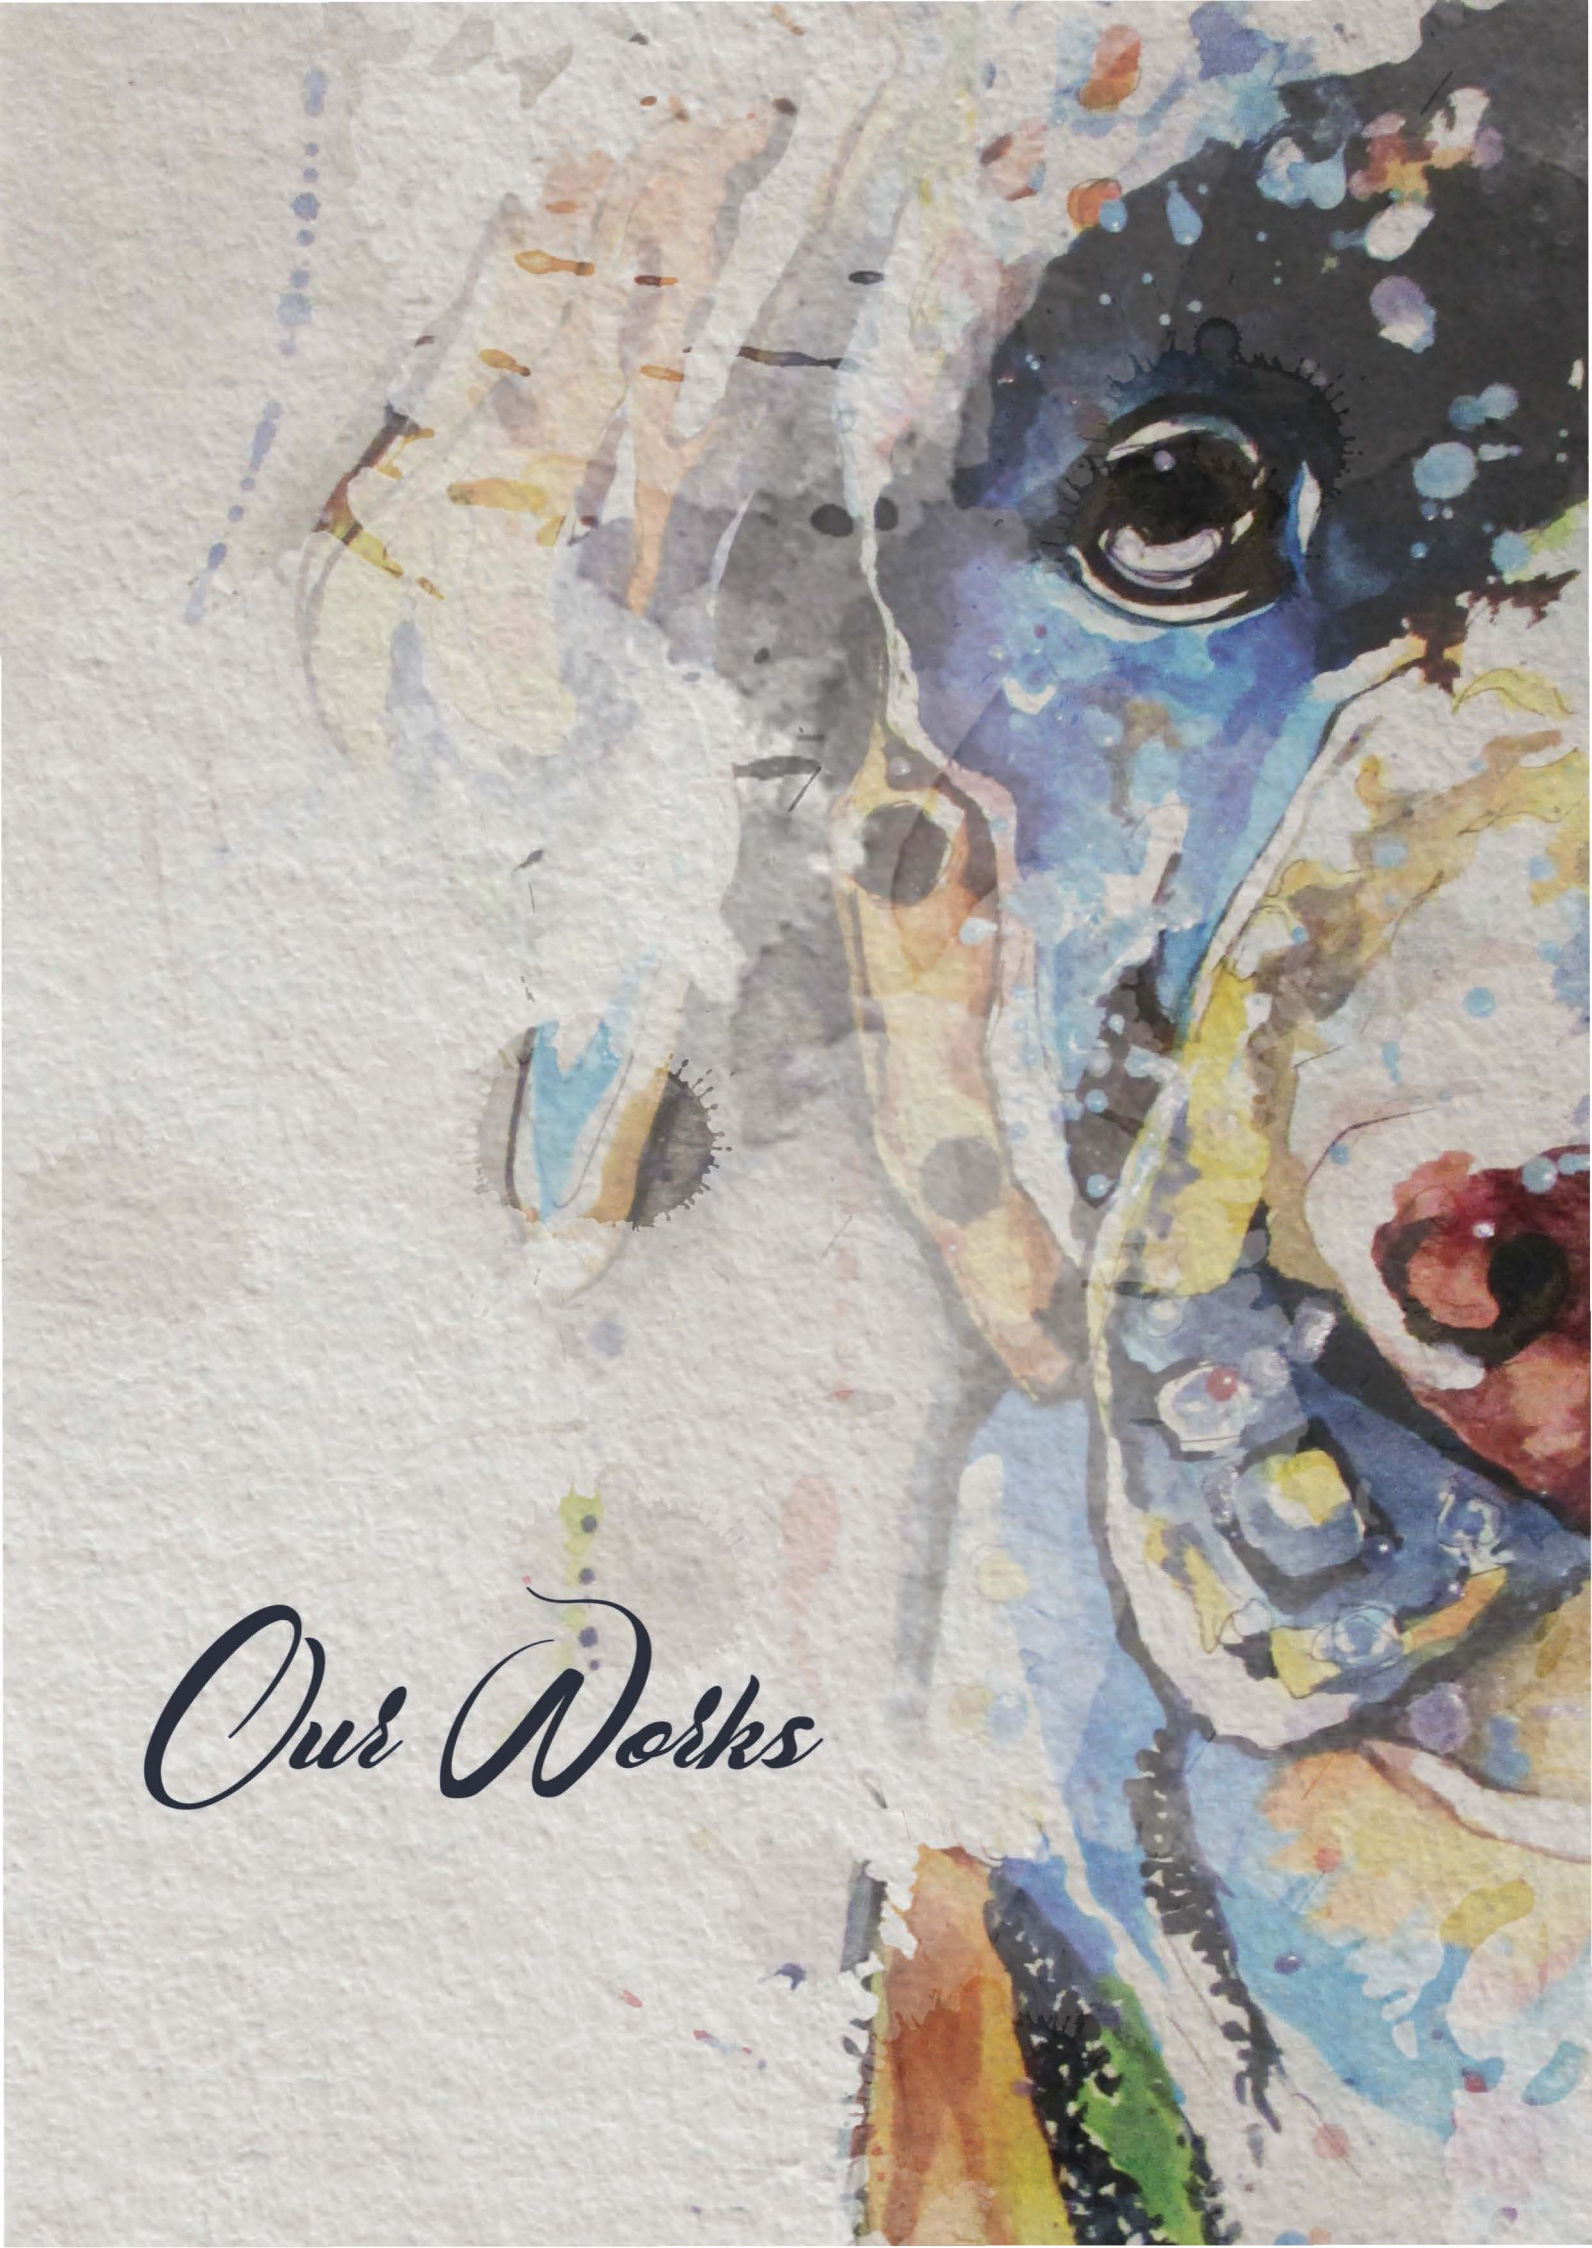

Boutheina Messous 24 years old energy engineer, and public affairs manager of Brotherhood Art Association.

She started to impress people with her drawings since a very young age, she won many prizes like the first and second edition of the competition the most talented university student of Monastir 2014 and 2015, and the conceptual design competition at the national automotive day 2017.

Abdelhadi Bouzir

Abdelhedi bouzir 18 years old, treasurer of Brotherhood Art Association. Totally self-taught in the field, he learned on the job by watching the work of Brotherhood Art. He developed his talent at a young age by adopting the calligraphy style.
